Rimini Street®

Engineered for Support™

Client Success

Rimini Street is trusted by the world's leading organizations to provide independent, third-party enterprise software support services for their mission-critical enterprise software, helping them immediately slash IT operating costs, save jobs, stabilize operations and allow their IT organization to focus resources on strategic initiatives that enhance competitive advantage and fuel growth.

Rimini Street clients represent a broad array of markets and range from emerging, young companies to global giants. But they also have a lot in common:

- **172 of our clients signed to date are in the Fortune 500 and/or Fortune Global 100.** These household names may appear to have unlimited budgets but how they apply those budgets and redirect savings into innovation is what separates them from their peers.
- **Over 68% of our total clients** appreciate the reduced Tax, Legal and Regulatory (TL&R) complexity and trust us to help keep their systems current and compliant. Rimini Street has delivered over 358,000+ custom Tax, Legal and Regulatory (TL&R) updates to our clients.
- **Since inception, our clients have saved nearly \$5B** in combined estimated operational efficiencies by choosing Rimini Street as their third-party software support partner, and we have helped them say good-bye to vendor dictated roadmaps, in favor of a Business-Driven one.

See why these clients have selected Rimini Street and discover what you share in common with them.
